'WATCHFUL WAITING' MARKS PAVING WAR

Proponents and Opponents of Asphalt On West Gambier St. Waiting For Moves

A period of "Watchful Waiting" appears to have been entered into respecting the West Gambier street paving project. Representatives of each of the opposing elements are waiting for the other to make a move.

Thursday Mayor Keigley disclaimed responsibility for a pronouncement in favor of the asphalt paving put forth as coming from the board of control which awarded the contract. He had no knowledge, he said, of the authorship or source of the information. He was disposed to view it as representing only the individual and personal views of a single member and not authorized nor given under the official authority and sanction of the board of control.

As for himself, Mayor Keigley said, he has adopted the policy of "saying nothing." He does not purpose further entering into the controversy until such time as it possibly may be necessary to come into court and defend the letting of the board of control. The courts are the place, and not the newspapers, he inclines to believe, in which to decide the law and the facts. By saying nothing now the opposition will be given nothing upon which to base its attack.

On the other hand the opposition is content to wait until they have prepared their case. One of the attorneys engaged to represent the West Gambier people favoring brick said he could draft a petition praying for an injunction within the space of ten minutes, but he was very well aware that such an injunction would hold no longer than the court could pass upon it.

The course of action he has suggested and which is being acted upon is one involving a patient and thorough examination and study of the records and the law applying.

Building securely upon such a foundation he purposes coming into court with a pleading of which he is sure.

No intimation is forthcoming when "action" may be anticipated. Until the study and preparation are complete there is no need for hurry.

Read Bible and Shakespeare. There is only one safe rule about the study of English, and that is to read those who know how to write it best. It is not uncommon for mothers to remark that they can tell instantly with whom their children have been associating, merely by their language. Constant association with the Bible and Shakespeare is the best rule. No substitutes better than these have yet been given to us.

Success Requires. To be a real go-getter you must attempt and succeed in a great many things common folks dodge. To be able to see values where others see loss brings riches and power. Folks call it luck. It's merely the asset of the go-getter. The more you do the more you can do. Success calls the machinery and tempers the tools that develop power. It's marshaling resources and turning them to account that marks you an outstanding figure. —Exchange.

The sewing meetings of the association will be discontinued until September.

CUT THE WEEDS IS ADVICE OF MAYOR

Season At Hand When Owners And Lessors Of Properties Should Act

Owners and renters of properties, and the owners of vacant lots in Mt. Vernon are advised by Mayor Keigley to lose no time in cutting what weeds may have grown up on them. In some places and sections quite luxuriant crops have been grown. These weed clumps and patches become breeding places for all manner of annoying and troublesome insects.

Weeds should be cut before the seeding season comes. It will be preferable for the owners to cut them voluntarily. If the city is compelled to have the weeds cut that cost will be assessed in taxes amounting to more than what it would be for one to have it done or to do it himself.

Mayor Keigley also offers the suggestion that many trees should be trimmed. On many streets in every section of the city are to be found numbers of trees with low hanging branches. When wet from rains the progress of pedestrians carrying umbrellas to protect themselves from the elements.

The appearance of some streets not only would be greatly improved but conditions of light also would be benefited if some trees were cut out entirely. Too much shade is as undesirable as none at all. When the trees were small the objectionable features were not so manifest as they have become since the trees have attained their growth.

Transportation In China. "Two legs for short distances and four legs for long ones" is the common method of transportation in China. Although railways and steamships are coming into service, camels and donkey trains are still frequently used.

Painters of the state highway department were in Mt. Vernon Thursday marking the route of the C. C. C. highway through the city. Instead of the paintbrush the painters use a paint spraying device the power of which is furnished by a gasoline engine.

COMMISSION STUDIES PLANS FOR BUILDING

Members Of Memorial Board Go Over Details With The Architect

At the meeting of the members of the Knox county memorial building commission held Wednesday at the office of President H. C. Devin, practically the entire time was given by the commissioners with representatives of the architects in going over and studying the details of the building plans.

The members of the commission purpose making no announcement of the adoption of any special feature or detail. It is their purpose only to announce the plans for the building as they finally are adopted. In this manner they hope to save themselves a maximum of annoyance and criticism coming from persons whose ideas do not coincide with those of the members of the commission and the architects.

The commission also gave some study to the site subject. They have not, however, arrived at anything definite on which to make an announcement.

BOWELS ALL RIGHT NOW

So Nervous Couldn't Sleep Until He Took Nerv-Worth

Some times it is a very small thing that leads to very large ones in the life of a person. If some one had not dropped the circular about Nerv-Worth into the automobile of this man he would very likely still be suffering severely from stomach and bowel trouble. If indeed he had lived so long with such an ailment. Here is the story just as Mr. J. C. Bradshaw, of Franktown, Mo., told it: "My stomach and bowels and digestive organs were in bad shape and I got but little sleep and no rest and so was all worn out in the mornings. My appetite was bad and I bloated terribly with gas after every meal until I found a Nerv-Worth circular in my machine. I went to the nearest drug store and got a bottle at once and before I had taken it half up I was better—soon I was well and have had no return of the trouble. Many others have had the same experience after they had almost given up hope of ever finding any relief. Most druggists have Nerv-Worth and sell it at one dollar a bottle on a guarantee of money back if you do not get entire relief from the first bottle. It is always on sale in this city at the Schrantz & Heckler drug store. It is especially fine for delicate women and sickly children. The taste is pleasant and the action while mild is unusually effective."
